## LION'S CUT CONSENT FORM

Today your cat will be getting a lion's cut under sedation. We will be using sedation that is appropriate to your cat's age, health and temperament. Depending on the type of sedation and your cat's temperament, the injection either goes into the muscle or vein.

A standard lion's cut consists of shaving:

- The entire body (back, stomach and chest)
- Down the legs to the ankles leaving "boots"
- Most of the tail except for the very end leaving a "poof" at the end of the tail
- Up to the base of the neck leaving a mane and trimming around the mane to make it a bit shorter and even

\_\_\_\_\_ Please initial here stating you understand that your cat will be receiving sedation today

\_\_\_\_\_ Please initial here stating you understand that if your cat is significantly matted and due to this additional grooming time is required, an additional groom fee of \$27.50 plus tax may apply.

\_\_\_\_\_ Please initial here if you would like your cat to receive the standard lion's cut

\_\_\_\_\_ Please initial here if you DO NOT want your cat to have the standard lion's cut and would like modifications to the standard lion's cut. Please state what modifications you would like:
